

The Pinnacle of Civilization

The Civilized Peak

It is at the same time the final Drama of Civilization. Moreover, no civilized data allows us to face this drama! To be equal to this problem, we must discover that we are then at the end of human Prehistory, which, as well as Civilization, includes Tradition, i.e. Matterist-Kindred community. To turn the leaf of Prehistory can only be possible with a 3rd humanity, animated with True Realism, founding the Suitable Community, that of Anar-Comm: abolition of Money and Weapons, Liberty-Equality, reign of Free-Livelihood-Voluntary-Service... in the HISTORICAL sense.

There is a historical Cycle and a geographical System. All boils down to names of representative characters, and to grasp the HISTORICAL significance of the whole.
