

Rule of the Road

- 1 To make a success of one's life, **is to tally with History**, and with the Humans of yesterday and tomorrow.
- 2 What I do not do, **someone else will not**.

- 3 To be as motivated and more efficient **today** than we were **yesterday**.
- 4 **To contribute** to discover militants who are **better** than ourselves. Can we best achieve “immortality”?

- 5 **To track down “bad faith”**; first about oneself then about others: are we what we fancy to be? You can't judge the Cleric by it Church “cover”!
- 6 **To admit** to oneself what be fancy, **to tell** what we really think and **to do** what we tell.

- 7 * **Everyone should know his place**: Caste – Mob (Simpletons et al.) – People (Front-Church). Then “everything goes all right!”
* But everything goes all badly, for those who **went through the WRC**, and later slobber on it: they will have halloo coming to their ears!
