

The **State of Emergency** (law of april 3<sup>rd</sup> 1955), sine die post-poned in the **Metropolitan France**, recurs really what happened to « **the three counties** » (Algeria) during 7,5 years, soldiers occupying the country since the All Saints' Day 1954. (The famed « occurrences »!)

## **CROOKED & SHAPELESS MASSES !**

The foul supreme reigning CASTE  
calls you « ratons » and « bougnoules »; and  
you behave yourself as « pieds-noirs »!

Don't you acclaim your tormenters,  
with candles and flowers  
at each alleged « muslim attack »;  
thus glorifying the regular Terrorism  
which is that of West-Babel?

Silly & down-burdening the earth persons:  
Let pull yourself together!  
You are thoroughly the wrong side up!  
While the Social Safety may solely be if you  
turn Commons the right side out!
